Where can I download Microsoft SQL Server Express 2005 or 2008 for use with WinSPC?

You can download the latest version of Microsoft SQL Server Express from Microsoft's Express website here:

<http://www.microsoft.com/express/Database/>

You can also download the following specific SQL Server Express versions from our website:

Microsoft SQL Server Express 2005 Installer

Microsoft SQL Server Express 2005 Management Studio

Microsoft SQL Server Express 2008 Installer (32-bit, Version 10.50.1600.1, includes Management Studio)

Please note that if you are downloading Microsoft SQL Server Express 2005, you will need both the server installer and the management studio package above.

For additional download options, please visit Microsoft's Express website.
