How do I activate my WinSPC licenses?

0. To activate your WinSPC licenses, you will need to do the following:
   Run WinSPC on any computer and login as the admin user. Select "Tools" > "License Manager" from the drop down menu at the top of the screen. This will cause the "License Manager" dialog box to appear. You will need to keep this window open during the licensing process, as the "Validation Key" required to complete the licensing process will change each time the "License Manager" window is opened.
   Go to https://www.winspc.com/support/license-winspc. On the webpage, you will need to enter:
1. º1Name: Enter the name of your company's contact person for WinSPC. Company ID: Enter the company ID that is referenced below, on your product CD case, or in your welcome letter. If you have trouble locating your company ID, contact Technical Support at 248.447.0140 or at support@winspc.com. Validate Key: Return to WinSPC's "License Manager" window (see step 2) and copy the "Validation Key" found near the top of the window. Paste this into the "Validate Key" text box on the webpage.
2. On the webpage, click on "Submit Form". You will be issued a "Product Unlock" key. Copy this key from the webpage and paste it into the "Upgrade Key" text box at the bottom of WinSPC's "License Manager" window. Enter the last four digits of your company ID into the "Serial Number" text box of the "License Manager" window. Click the "Upgrade" button on the "License Manager" window. You should then receive a message stating the licenses were updated successfully. You may now close the "License Manager" in WinSPC.

Note: You only have to activate the WinSPC licenses from one WinSPC client. You do not need to activate your licenses on every WinSPC client.
